The apple crop throughout the entire country this year, according to the estimate of the New England Homestead, will be 43,000,000 barrels against 27,000,000 barrels in 1901. As for quality this is far from satisfactory in the Central and Western States and in New England it is very much better.

MATRIMONIAL.

George Rice, 24, and Miss Lilly Walls, 17, were married at the courthouse yesterday by Judge Bailey.

John S. Pollard, of Indiana, an ex-Lincoln county man, and Miss Addie Cummins, of Crab Orchard, were married at Mrs. Martha Severance's Wednesday evening.

In speaking of their approaching marriage the Lexington Democrats say: Mr. Saufley is a son of Judge M. C. Saufley and is a valued attache of the INTERIOR JOURNAL, while Miss Engleman is a beautiful and highly cultivated young lady, who has a host of admirers every where she is known.

At 10 o'clock Wednesday morning Mr. R. L. Berry and Miss Jessie Feland were married at the country home of the bride, the ceremony being performed by Rev. Bussabarger in a beautiful and impressive manner. The wedding was a very quiet one, there being no attendants, and immediately after the ceremony the couple drove to Danville, where they took the train for the groom's home in Bath county. The bride is a daughter of Mr. and Mrs. A. M. Feland and is quite cultured and accomplished and has many friends here who regret giving her up, but congratulate the young gentlemen who has won her. Mr. Berry is a prosperous farmer and stands high at his home.

Gay; Miss Lizzie Taylor and Alfred Preston, both of the Sugar Creek section; Miss Dollie Crutcher and Marion Prewitt, of Paint Lick; Miss Flossie Sowder and Emeral Clark, of Carterville.

MANY THANKS.—The STANFORD INTERIOR JOURNAL has just completed its second year under the management of its amiable and capable editor, Mr. E. C. Walton. Its destinies are guided perhaps not so much by lucky, for that in itself does not imply much merit, but by industrious stars. With that bright particular one, Mr. Walton, is the ascendant, as ordinary gifted seer can't see anything but prosperity ahead for the INTERIOR JOURNAL—Advocate.

A dispatch from Georgetown states that Caleb Powers, convicted of the murder of Gov. Goehel, is endeavoring to get a Cincinnati physician to make a chemical analysis of his stomach. An analysis of his brain after his neck has been broken for the horrible crime of which he is charged, would be more in the nature of the eternal fitness of things.

MR. H. ROWAN SAUFLEY.

Of this office, who on the evening of Nov. 12, will wed Miss Anne Bronaugh Egleman, is one of the brightest and most energetic young newspaper men in the State. For several years he has been associated with this paper and has proven worthy of every trust reposed in him. In fact we consider him a very essential part of the paper and would like very much to attempt to get along without him. His bride to be is a beautiful and cultured young girl who is exceedingly popular, and that their union will be a most happy one we have every reason to hope and believe.

M'CREEARY

While in Cincinnati Enthusiases Over the democratic prospect in Kentucky this year.

The following is from the columns of the Cincinnati Enquirer:

Hon. James B. McCreary, United States Senator elect, came over to Cincinnati yesterday from Covington after closing his hustings work in the 9th and 10th Congressional Districts, which are embraced in Judge Paynter's Appellate Court District.

"Gooch, Kehoe and Paynter will all be re-elected by increased majorities," said the Senator, "for their districts are well organized and the democrats united and enthusiastic. I was in Louisville a few days ago, and going over the situation with the democratic leaders I was thoroughly convinced that we will gain a Congressman and Judge of the Court of Appeals in that district. The republicans are making a fierce fight in Rhea in the 3rd Congressional District, but Rhea is a game fighter himself, and he is going to be elected by such a majority that Moss will never have the hardhood to contest his seat. We will also gain a Judge of the Court of Appeals from that section of the State. We are certain of 10 out of the 11 congressmen composing our delegation. Yes, I keep in touch with the National Congressional Campaign Committee, from whom I have had three letters recently assuring me that we will carry the House of Representatives. Yes, the race for the democratic gubernatorial nomination in our State will become interesting after the election, when I am informed Gov. Beckham and Hon. James D. Black will formally announce their candidacy, as Judge R. J. Breckinridge and Hon. J. K. Hendrick have already.

What prediction do I make as to the democratic majority in Kentucky at the approaching election? I firmly believe it will be between 30,000 and 40,000."

KINGSVILLE.

Mr. W. L. McCarty was in Lexington Monday and Tuesday.

Mr. McKenzie is ill of pneumonia, Dr. Thompson informs us.

Mrs. Wilson, of near South Fork, is barely alive, being a sufferer from a goitre.

A new barber shop on church street has been erected and will be conducted by Messrs. Jas. Florence and Houpe.

W. L. McCarty will go to the city soon to purchase new goods. The chiropodist, Dr. W. Y. Erwin, of Hopkinsville, is here and said to be getting a fine practice.

The democratic speaking by Hons. J. S. Owsley and W. S. Burch next Saturday is being looked forward to with much pleasure. It is really too bad that our town has no hall for public speaking, etc. We wonder some of our prominent citizens, W. L. McCarty, Dr. C. M. Thompson and others do not undertake the enterprise.

Little Miss Bessie Reynolds was so unfortunate as to get one of her limbs broken just above the knee. The baby occurred Friday evening while Oby Francis was drawing Bessie and a number of other children in a cart. He went too near a deep cut near the road, into which the children were precipitated, all being more or less injured, but none so seriously as the Reynolds' child.

Meadams Durbin and Sam Sims are rejoicing over the late arrival of a son, each. The greatest and most intense excitement prevailed here Sunday morning when the news was quickly circulated that Mrs. Dave Hicks was the mother of triplets—three girls weighing 18 pounds, altogether. They are all pretty children and according to the attending physician, Dr. Thompson, there is no reason why they should not live, as they are quite healthy, requiring only proper attention. The neighbors have been very kind and attentive and many little dresses and other articles of a baby's wardrobe have been presented to the unexpected welcome trio of little girls. Several have offered to adopt two of the babies but the parents would not part with them although they have 10 children, six boys and four girls. The triplets are named, Stella, Lula and Ella.

Mrs. D. P. Dineen and handsome children returned to Somerset. Hon. W. S. Warren and pretty little daughter, Miss Margaret Warren, of Stanford, spent Monday at Hotel Pennybacker. Mrs. Fannie E. Carey returned from Stanford Sunday accompanied by W. W. Walter. Dr. Bee Walter, of Lancaster, is here to practice his profession. Miss Gertrude Davidson returned from Shelby City Monday. Miss Virginia Johnson left Saturday for Verona, where she will visit relatives and attend school. Mrs. Pennybacker and Miss Elizabeth McFarland will go to Somerset this week where Mrs. Pennybacker will make her home. Their many friends here give them up with regret. The entire community, at least every one we have heard speak of Mrs. Pennybacker's departure from our town, regret to lose her. Mr. J. M. McCarty will take possession of the hotel Thursday. Mrs. Pennybacker and Miss McFarland will drive through to Somerset the latter part of the week. A Mr. Cochran, wife and daughter, of Boston, Mass., are the latest accessions to our town. Mr. Cochran has rented Sebastian Chevrelot's home with a view of purchasing. The latter will probably move with his family to Somerset. Dan Hester has quit the livery business and J. M. McCarty will have livery facilities in connection with the hotel. A new side walk on Main street will be made in the very near future.

This is what our brother, Mr. W. P. Walton of the Lexington Democrat, has to say about us, for which we acknowledge thanks: The INTERIOR JOURNAL has rounded out two years under the editorial and business management of Mr. E. C. Walton, who continues to improve and fortify it in publication while making it a financial success. The paper was always a little gold mine and the writer often wishes that he had never been tempted to leave the good old town at which it is published, and given it up for harder and less satisfactory work. It would have saved us many a headache and sleepless night but that isn't here nor there. We have enlisted for the war and having put our hand to the plow we do not intend to look back. We have demonstrated that we can run The Democrat even under the most adverse circumstances and we are going to make it a financial success or "bust" or die in the attempt. It is gradually becoming a paying property and having weathered every storm, is sailing slowly but surely to the success we have marked out for it. Our subscription list grows apace, our advertising columns speak for themselves and if our friends continue to show their appreciation of our efforts, we will show them that they have not misplaced their confidence.

The Question Is

Not how much goods we will sell this Fall, but how many men we will be able to supply from our stock before it is gone.

When people begin to realize the good things we have here, the stock wont last long. So come early. Clothing, Hats, Shoes. Good values, style and comfort.

Of Wayne County, is a candidate for State Treasurer, subject to the action of the Democratic party.

ROBERT HARDING,

For Congress,

G. G. GILBERT

Of Shelby.

Mr. Gilbert And Congress.

Before the next issue of this paper the battle of the ballots in the Congressional race will have begun. A parting word to the democracy of the 8th district may not be amiss.

Mr. George G. Gilbert is the nominee of our party. His success is our success. His defeat is our defeat. There can be no honor accredited to him which is not reflected on us. There can be no disaster visited upon him by which we are not sufferers. If we are mindful of our own interests, and we are strange folks if we are not, these simple reflections should put us on our mettle. There is much apathy throughout the district. Mr. Gilbert has done his duty zealously and well. No blame can be laid to his door. He has spoken at many places in each county in the district. His discussion and elucidation of public questions has been superb. He has shown himself to be a lucid, well informed, vigorous debater. His course in Congress attests his fidelity and efficiency as a representative. He is an upright, clear and honorable gentleman, who can represent, and has already fitly represented, fine people in the Federal legislature, reflecting their dignity and social excellence in a style which they most admire: framing for them the measures of legislation in which they are specially concerned; and keeping meanwhile, steadily in mind the approved maxim that those laws and policies are best which yield the greatest good to the greatest number.

We discredit ourselves, we slothfully neglect our own interests, our just pride in genteel and able representation if we suffer him to be defeated by our own apathy. His opponent has deemed it impolitic to meet him in joint debate. For this reason there is not that friction which always excites public attention, and this is precisely what our friends the enemy, have been careful to avoid. They can not stand the friction of debate. They do not want the search light of public attention thrown upon their party record. They prefer the calm of public stupor. They prefer the darkness of public ignorance. If the leaders and the favorites of those leaders can fatten and grow rich and wax strong under the stimulus of partisan and class legislation, their greed is attained. Their party creed teaches, their party practice accords with that party creed, that government was made for the few and that the greatest good to the favored few should be the chief end of legislation.

Beyond all peradventure, the democratic party is the people's friend. It is the people's exponent. It is the people's defender, their champion, high-tower and fortress.

Remember Tuesday the 4th day of November! That is election day! That is Gilbert's day! That is the people's day!

The election day this year is but the prelude to the presidential campaign two years hence. The democrats have well-founded hopes of carrying the next Congress. If they do Roosevelt will walk the log in 1904.

Democrats should see to it that we carry every Congressional district in the State except the 11th. The devil and darkness have a firm foot hold out there and we surrender that territory to them. The 8th district is a different make up. Take the bigger out and our republican friends would be definitely lonesome.

Tuesday, the 4th day of November. Let that be memorable as the day Lincoln county stood loyally to Gilbert, her own offspring. His father and mother are natives of Lincoln. They were married here. Gilbert Creek was named for the grandfather of our Congressman.

The Protective Tariff and the Trusts are twin evils. They are partners in economic crime. They are co-conspirators in social wrong. Each one is fostered and supported by the same class of people. A protected tariff begets a trust. A trust draws its life from a protective tariff. They are both enemies to the law, to the government and to the people. If you want to destroy them, vote for Gilbert.

Gilbert has faithfully and ably represented this district. He has done more than well. The next session, because of previous experience, he can and will do better. He is already a credit to his

district. What need is there for a change? His opponent is quite a young man and inexperienced gentleman, who until very recently was a zealous democrat. It would not be a good trade to swap Gilbert for this young gentleman, who is not yet bridle wise.

A TRUST, in its political and modern commercial sense, means a combination of a large amount of money and property to carry on a particular line of business, and to make that business profitable by crushing out all competition in the same line. This is contrary to law. It is destructive of the interests of the great body of people. It raises the prices of all things which the people must buy to live decently and comfortably. If you favor the trusts, vote for Mr. Sumrall! If you are opposed to trusts vote for Mr. Gilbert.

A TRUST is not the legal trust which we hear about in the courts, and which are created by deeds and wills. It is a new device to oppress the poor, to harass the ordinarily well-to-do farmer, and to bother even the man who has a few thousand surplus. It is a scheme to plunder everybody but millionaires.

POLITICIANS figure that by the supplemental registration Louisville will go democratic by 6,000.

THE NEW YORK HERALD, whose election forecasts are usually reliable, says the democrats will elect 10 congressmen in Kentucky. That's what the INTERIOR JOURNAL has said all along and next Tuesday will show whether these prophets, in and out of the country, are with or without honor.

DEMOCRATS of the Eighth district are alarmed and are making a great effort to get out the vote.—Louisville Post. Gee whiz! What a fabrication. The eighth district is as sure to go democratic as election day is to come. Mr. Gilbert's majority will not be under 2,000.

YESTERDAY'S dispatches tell of a young man killed in Indiana while playing football and a young lady killed in Simpson county, Kentucky, while playing croquet. It can not be argued from this that the latter is as dangerous a game as the former, which is a continuous menace to life and limb. The growing wonder is that the fatalities from football are not more frequent. In no other way could boys show so great a disregard of their physical being and come out so well.

A BILL will be presented before the Massachusetts legislature providing for the incorporation of trade unions. Heretofore the unions have preferred to exercise power without accepting full responsibility for results. They enter into undertakings without furnishing any guarantee against failure to fulfill their agreements. They do injuries for which there is no possibility of reclamation. It would wonderfully advance the standing of labor organizations if they should become incorporated and consent to put some of the money they squander in fruitless strikes in to the form of a money guarantee for the performance of their contracts.

THOSE who know Judge T. Z. Morris will regret to hear that he has agreed to withdraw from the race to succeed himself as circuit judge in the Somerset district. G. W. Shadoe opposed him and a bitter fight resulted between the respective friends of the candidates, which has been temporarily settled by both withdrawing and agreeing to support O. H. Waddie, a turncoat, for the nomination. It is bad enough to see the "old judge" retired after so long and so honorable service on the bench. It is worse to see a man who a few years ago claimed to be a democrat, get what's a majority of the turncoats turned for—a fat office.

POLITICAL.

No opposition having developed to Judge J. M. Benton and Commonwealth's Attorney Crutcher in the 28th judicial district, they have been declared the democratic nominees for reelection.

Several prominent republicans and democrats of Bowling Green have been summoned to appear before the Federal grand jury in Louisville, presumably in regard to alleged violations of the registration laws.

Hard work is being done and money is being turned loose by New York republicans in an effort to save the State for Odell. Attention will be confined from now on to an attempt to hold down the democratic majority below the Bronx.

A bitter republican fight in the Somerset judicial district has been settled by the withdrawal of Judge T. Z. Morris and G. W. Shadoe from the race for Circuit Judge, both agreeing to support O. H. Waddie, a former democrat, for the nomination.

President James J. Hill, of the Great Northern railway, addressed 13,000 farmers at Crookston, Minn., telling them that his road was paying 7 percent dividends, and that its supreme object now is to secure prosperity for the Northwest.

One Kentucky congressman, at least, is taking life easy. The Hon. Dave Smith of the fourth district, has been given a walk-over by the republicans who had sense enough to know that they had no more chance of defeating him than a snowball has of

maintaining its shape in hand.

Gov. Beckham has agreed to make four speeches in the Ninth Congressional district in the interest of Congressman Kehoe and Judge Paynter. He will speak at Brooksville to-day and at Augusta to-night. On Saturday he will speak in the afternoon at Carlisle and in the evening at Cynthiana.

In response to a dispatch from the Cincinnati Enquirer, Chairman Griggs, of the democratic National Congressional Campaign Committee, said: "I have no doubt of a democratic house by from 16 to 18 majority." This is good news. Let us pray that it will prove true and contribute to the hoped for result by electing 10 Congressmen in Kentucky.

**What Democracy Represents
And Opposes.**

With the tariff and trust questions the issues of the campaign, and with consistent record for honest opposition to a trust-breeding, monopoly sheltered tariff, and to the great trust evil which is becoming such a serious menace to the welfare of this government and its people, the democratic party is ready to rest its case and let it go before the great jury of American voters for their verdict. It not only asks that the verdict be the result of a deliberate and unbiased judgment, and that it be in accordance with the facts and evidence which has been submitted thro' the press and from the hustings. It asks the jury to remember that democracy is opposed to the Dingley tariff for the following reasons:

1 Because, according to indisputable testimony, it enables American manufacturers to compel American consumers to pay more for their products than they charge European and other foreign consumers for the same products.

2 Because it has demonstrated that the tariff does foster trusts and that it protects them in their outrages on the people.

3 Because the primary object of a protective tariff is to enable the manufacturer to charge the consumer more for his goods than he would otherwise have to pay, which is an injustice.

4 Because it taxes the masses in order to enrich a favored few, making those immoderately rich at the expense of the very few people they afterward oppress.

5 Because, while professing to be for the benefit of and in the interest of labor, in reality it does nothing but build up great fortunes, which are afterwards inimical to all the interests of labor, as the tyrannical coal trust, for instance.

6 Because it is discriminating, and lends the governmental machine to the rich and oppressive trusts in order that they may be sheltered in their unlawful purpose of stifling competition and forcing the consumer to pay the prices they in their greed and avarice may see fit to name.

7 Because its author himself said that they had purposely made it too high.

8 Because when the republican text books boast that we are competing with the world in the open markets of the world, it leaves not a solitary sane reason why it should be continued.

9 Because it violates that great principle which would give every man an equal chance to earn a competence and an equal right to live.

10 Because it is unfair, unjust and undemocratic.

And it asks the jury to remember that democracy's grounds for opposition to trusts are:

1 Because they are dangerous to the welfare and well-being of the people on the beach.

2 Because they are arrogant and overbearing and crush out legitimate industry and competition, gobbling up everything in sight for themselves.

3 Because they combine and conspire to cheat labor out of its earnings and to defraud it out of its lawful rights. They are the beneficiaries of the tariff rather than the men who work for them.

4 Because they first throttle competition and then charge exorbitant prices for their product.

5 Because they add to the already almost intolerable burdens of the poor.

6 Because they corrupt Legislatures, buy themselves or their creatures into power and carry out their unworthy ends at any cost.

7 Because they are against the people and against the right.

8 Because they are in close alliance with the leaders of the republican party, which helps them on the "you tickle me and I'll tickle you" plan.

9 Because the trusts are against the democratic party.

In these premises democracy is one with the people of this country and confidently awaits their verdict.

Four juries—48 of his fellow-citizens gathered from the four corners of the State—have, without a dissenting voice, pronounced former Banker and Board of Aldermen Briber McKnight guilty of embezzlement. Such unanimity of opinion seems, however, to cut no ice with old Legal Technicality.

The multiplication of railways has not diminished the number of postal stages in Germany. On the contrary, the number of stage drivers rose from 6,176 in 1896 to 5,314 in 1900.
